

SAGE DANLEY

1-6 *Blackwell Collective*

7-12 *Atelier Hikari*

13-16 *Oakridge Cottage*

17-20 *Silver Springs Estate*

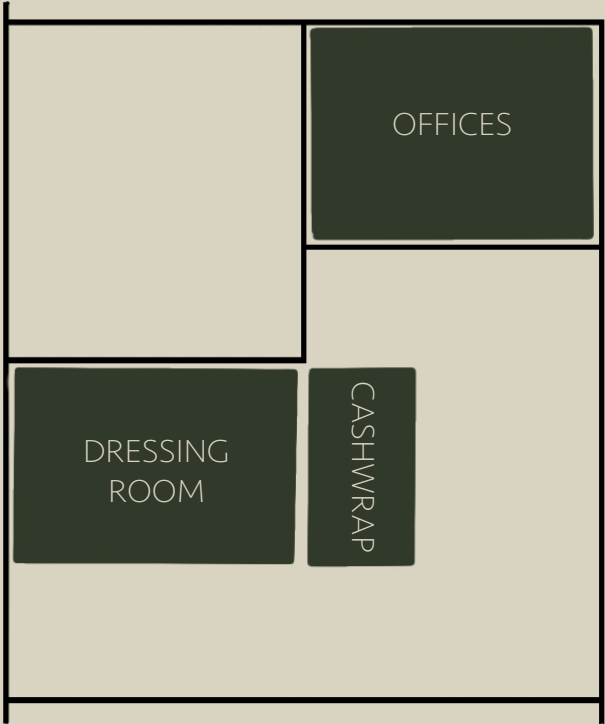

A luxury menswear retail concept designed to provide a refined shopping experience inspired by the timeless architecture and sophistication of New York City. The design combines modern materials, tailored detailing, and clean lines to create an environment that reflects craftsmanship, professionalism, and contemporary style. The program includes a retail showroom, custom display areas, fitting rooms, a central cash wrap, executive offices, a conference room, and a second-floor suit design studio. The result is a retail destination that seamlessly blends luxury shopping with personalized client services and brand identity.

FLOOR 1

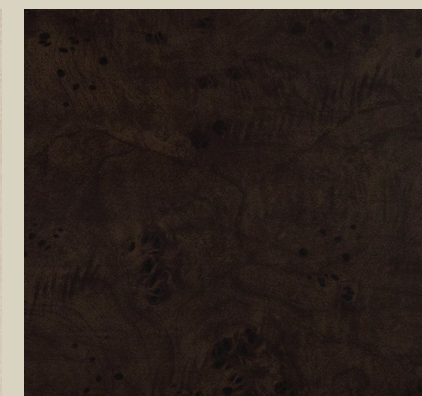

FLOOR 2

Inspired by the craftsmanship of bespoke tailoring and the refined character of New York menswear boutiques, the retail space is designed to elevate the shopping experience through thoughtful materiality and understated luxury. Rich wood, natural stone, warm metals, and carefully curated displays create an atmosphere that feels sophisticated, inviting, and timeless while allowing the clothing to remain the focal point.

Bench Upholstery

Inspired by the moody sophistication of New York's luxury retail scene, Blackwell Collective was designed to redefine the custom menswear experience. Rich walnut, expressive natural stone, tailored textiles, and warm bronze accents create a layered material palette that conveys timeless craftsmanship and understated luxury. Together, these elements foster an immersive environment where clients can discover fine materials, collaborate on bespoke garments, and enjoy a highly personalized shopping experience.

Designed to elevate the custom tailoring experience, the integrated material library transforms fabric selection into an intentional design moment. Flush pull-out display rails conceal an extensive collection of suiting fabrics, allowing the wall to maintain a clean, architectural appearance when closed. As each panel is extended, clients can compare textures, colors, and patterns side by side, creating an intuitive and tactile selection process. This concealed system balances functionality with refined aesthetics, reinforcing the boutique's emphasis on craftsmanship, personalization, and thoughtful design.

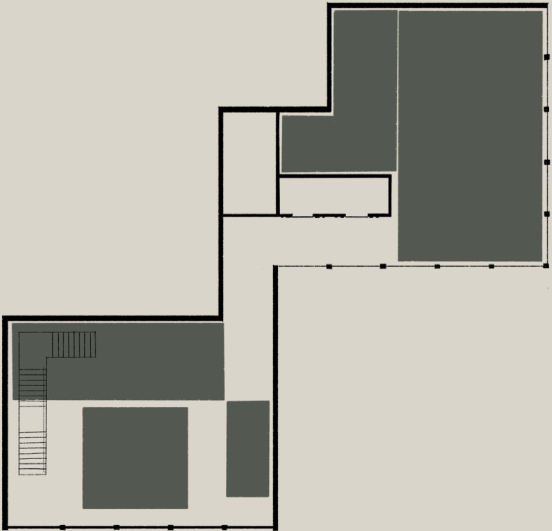

A boutique hotel concept located in Japan that blends contemporary luxury with traditional Japanese principles of simplicity and serenity. The design features a welcoming lobby, restaurant, private work club, administrative offices, an onsen-inspired spa floor, and three guest suites. Natural materials, warm neutrals, and minimalist detailing create an atmosphere centered on wellness, relaxation, and quiet luxury.

Bench Wood

Inspired by the Japanese tradition of the onsen—natural hot spring baths that encourage relaxation and mindfulness—this space was designed as a quiet retreat from the pace of daily life. Warm stone, richly figured wood, textured plaster, and Inspired by the timeless character of the traditional farmhouse, this home was designed to balance classic craftsmanship with everyday

Opt. 2

Designed as a quiet retreat within a luxury wellness hotel in Kyoto, the guest room draws from the calm, intentional nature of Japanese hospitality. Warm timber, textured plaster, soft neutral textiles, and restrained detailing create a serene environment rooted in natural materiality. Layered lighting and carefully considered furnishings balance comfort with simplicity, while expansive views connect the interior to the surrounding Kyoto landscape. The result is a refined, restorative space that emphasizes craftsmanship, tranquility, and thoughtful design.

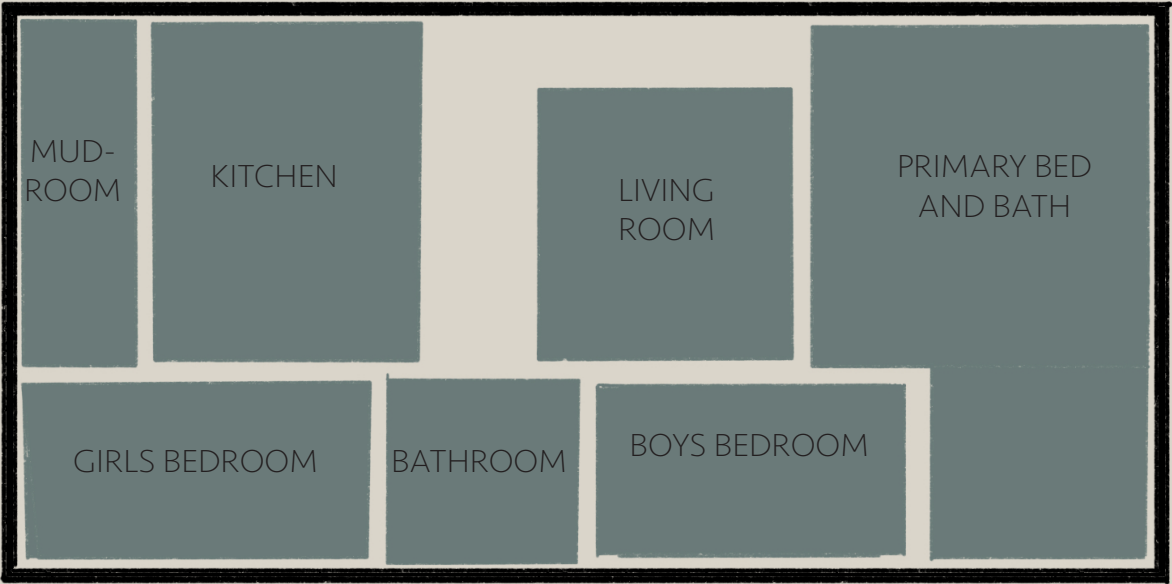

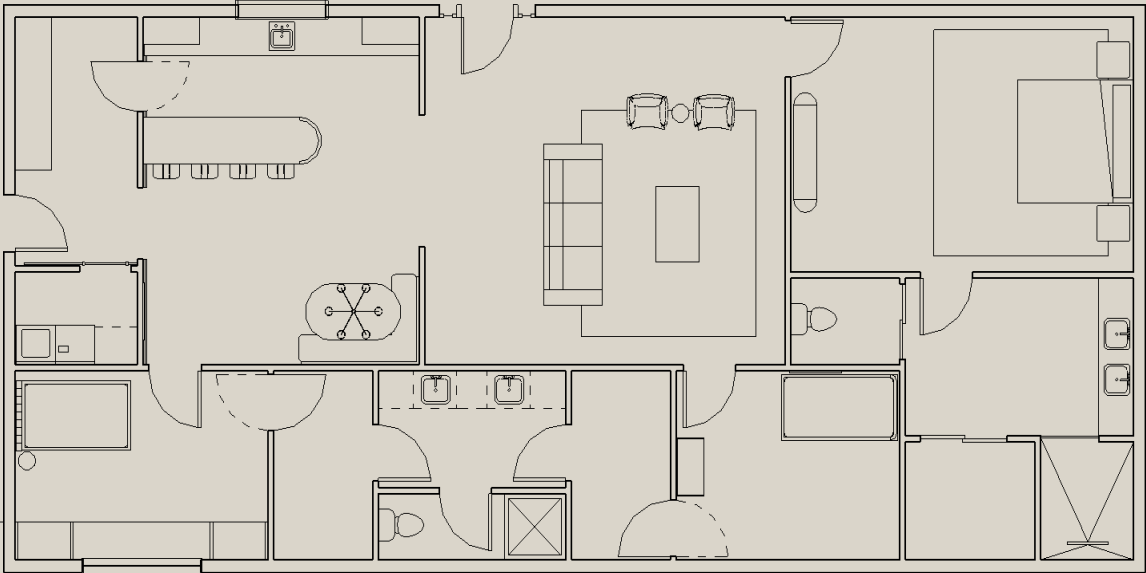

A traditional single-level home redesigned to support a recently disabled mother while maintaining comfort, functionality, and timeless residential character. The remodel incorporates full ADA accessibility throughout the home, including barrier-free circulation and universally designed living spaces. The program features a primary suite, two children's bedrooms, a home office, laundry room, mudroom, pantry, and open-concept living areas. Thoughtful planning and elevated finishes create a home that

FLOOR 1

Inspired by the warmth and simplicity of traditional cottage living, the home is designed to feel welcoming, lived-in, and enduring. Natural wood, soft textiles, handcrafted details, and a light, layered material palette create a sense of comfort and familiarity, balancing timeless character with everyday functionality.

Cabinetry

Bar Stool Upholstery

Backsplash

Inspired by the timeless character of the traditional farmhouse, this home was designed to balance classic craftsmanship with everyday comfort. Rich wood tones, expressive natural stone, painted millwork, and layered textiles create a warm material palette that celebrates authenticity, durability, and refined detailing. Together, these elements foster an inviting atmosphere where family and friends can gather, creating a home that feels both elegant and enduring.

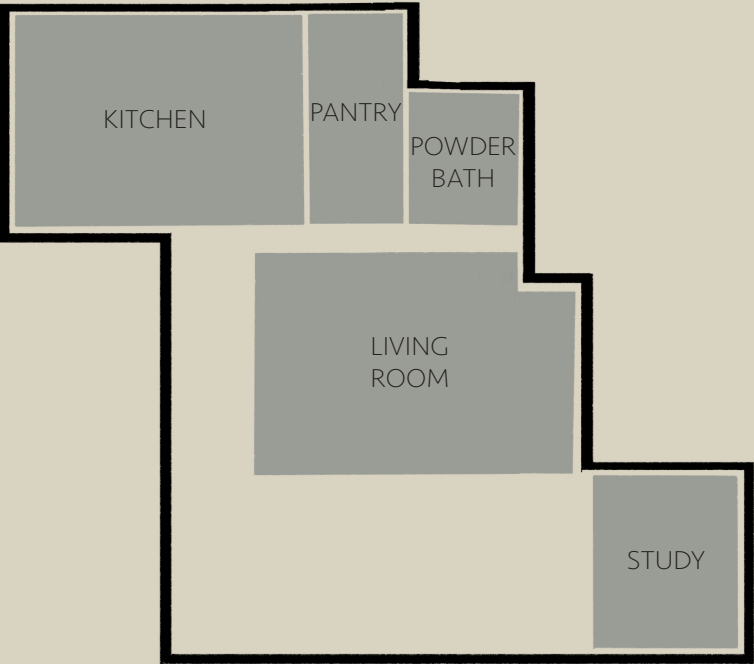

A luxury residential remodel designed for musician and songwriter Stevie Nicks, creating a private retreat where she can recharge between tours while gathering with family and friends. Inspired by a romantic gothic aesthetic, the home blends rich textures, vintage influences, and moody elegance to reflect the client's artistic identity. The two-story residence features living and entertaining spaces, a kitchen, private bedrooms, a grand staircase, and a dedicated library, creating an environment that balances creativity, comfort, and timeless sophistication.
