

## Medical Assisting Program Vaccine Requirements

The following immunizations must be completed and submitted to the Program Chair via the student drop box on the 10th floor, while taking HP 140 and LS 265. Write your ID number on a sticky note with your vaccines. Submit what you have for now. Don't feel pressured to get everything right now. Childhood or current records are accepted.

Once you have completed HP 210/212, you will receive an email with any other documents that you're missing for the practicum (internship class).

- a. \*Hepatitis B (proof of 3 series) **plus a blood titer to show immunity required (blood draw test).**
  - b. Tetanus Diphtheria and Pertussis (**Tdap**) within less than 9 years. (TD) Tetanus and Diphtheria are not accepted at the clinics.
  - c. Measles, Mumps, Rubella (MMR) (proof of 2 series).
  - d. Varicella (Chicken Pox) (proof of 2 series).
  - e. Flu shot and TB titer are due the semester before practicum (at least 8 weeks in advance).
- 
- A student must pass the courses above and submit immunizations to be accepted in the Medical Assisting Program and to register for HP core courses
  - You must also submit proof of a background check and drug test before you can be admitted to HP 299. See MA Student Handbook for more details.
